

# जल तथा उर्जा परामर्शदाता संघ नेपाल

## Water & Energy Consultants' Association Nepal (WECAN)

### 1.0 Background

Water and Energy Consultants' Association, Nepal (WECAN) was founded in September 14, 2009 (B.S.2066-05-29). It is registered in District Administrative Office in Kathmandu. The need of such an organization was realized largely to address the common issues faced by the Nepalese consultants working in water and energy sectors as well as to take the opportunity and challenges in a unified way. Thus 'WECAN' indicates the excellence in unity. An eleven-member Executive Committee is entrusted to lead the organization effectively. WECAN has already twenty six registered members.

### 2.0 Vision

To become a key player in the development of water and energy sectors by providing quality services at national and international level.

### 3.0 Mission

To maximize the role of Nepalese experts through the creation of consortium of consultants working in the water and energy sectors.

### 4.0 Objective

The main objective of WECAN is to establish a strong network of consultants working within the country and abroad in water and energy sectors for creating excellence in its services.

The specific objectives are:

- To maintain Consultants' values, rights and professionalism.
- To carrying out regular seminars, workshops, trainings at national and international level.
- To build awareness about the importance of water and energy through media and publication.

- To create knowledge bank for its clients as well as to provide opportunity and challenges for young members of WECAN.
- To raise and administer fund WECAN's sustainability

## 5.0 Activities

Following activities are envisaged to carry out for effectiveness of WECAN:

- Conduct regular trainings, workshops, seminars and exhibitions etc. to meet the standard of services in water and energy sector (**WECAN Trainings**)
- Create a cooperative of consultants working in Water and Energy Sectors (**WECAN Cooperative**)
- Raise and maintain fund generating activities for financial sustainability of the organization (**WECAN Fund**)
- Publish regular data-base and news (**WECAN Bulletin**)
- Form a strong network of consultants to provide quality consulting services (**WECAN consultant**)
- Support Research and Development in water and energy sectors (**WECAN R&D**)

## 6.0 Strategy:

- Coordination and cooperation among various stakeholders in water and energy sectors
- Achieve key decision making position in organization such as AEPC, REDP, WECS etc in active partnership with them.
- Become members of key professional organizations
